All requests for financial assistance will be considered subject to the following guidelines. Please read carefully.

1. You must submit an income tax return for the pervious year. If there is a significant change in your income from one year to the present, your financial aid could be adjusted accordingly.
2. Priority is given to low income families with both parents working full time, single working parents, and families experiencing financial strain due to disability, or medical or family emergencies.
3. **Availability of funds.** Income qualification based on the amounts listed below does not guarantee that financial aid will be awarded. Limited funds are available for financial aid and are distributed to those with the greatest need. Applicants who are not awarded financial aid at the time of application will be placed on a wait list for availability of funds.

I have read the financial aid guidelines and included income verification. I understand that my application will be considered in the order in which it is received and is subject to review every academic year.
